

UA GLASS_{LTD}

Printed Glass Splashbacks and Wall Art

UAGlass_{Ltd} was established in 1997. We are a family based company and are renowned for supplying excellent quality products and providing a warm and friendly service with honest advice.

Over the years we have developed our business by investing in machinery allowing us to manufacture a vast range of glass products in-house. For further information on our products please visit our website www.uaglass.co.uk.

The Latest Innovation in Interior Design

Brought to you by
UAGLASS LTD
 Norfolk's Glass Specialists.....

Printed glass splashbacks and glass wall art are the latest innovation in decorative glass. We are able to laminate any image onto glass, from a family portrait to your favourite landscape, or alternatively you can choose an image from an extensive in-house catalogue, the design options are endless! The images are printed onto a vinyl and adhered to low-iron glass using a laminating process.

All printed glass splashbacks are manufactured using 6mm glass as standard and are finished with polished edges. The glass can be shaped if required, and cut outs can be made for sockets and switches.

Printed Glass splashbacks are made to order to your specific requirements, and fixed using adhesive.

We offer both a templating and fitting service covering Norfolk, Suffolk and Cambridge, or alternatively, a supply only service for if you wish to install the glass yourself

Due to printing limitations the colours shown may vary slightly when compared to the finished glass product.

Standard Designs *

Brooklyn Bridge

Colourful Smoke

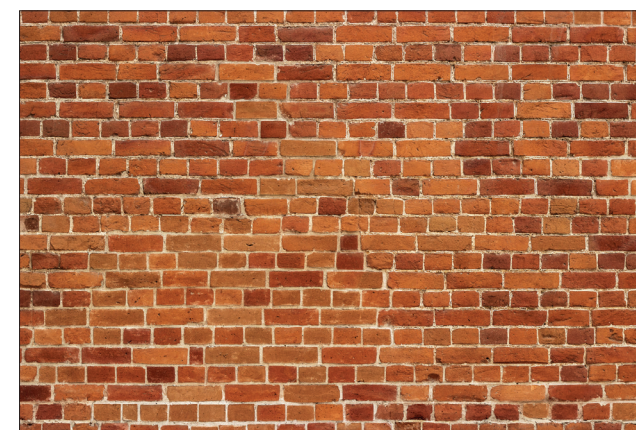

Fresh Pink Peonies

Poppy Field

Reflections on Buttermere

Brickwork

Abstract Cocktail Glass

*hundreds of splashback images are available from an extensive in-house catalogue.
